

# Gyms, Leisure and Wellbeing Centres.

Gyms, Leisure, and wellbeing centres receive strong peak of visitor inflow which can only be managed by modern access control solutions.

Ensuring access is only granted to paying members and visitors is very important to leisure centre managers.

Tailgating in leisure environments especially in the advent of 24-hour gyms with unmanned receptions can be an issue.

Gyms & Leisure

# Our Solutions

Gyms and leisure's centres typically use tripod turnstiles and pedestrian gates controlled by an access control management system.

Many 24/7 gyms use high security portals or full height turnstiles.

Where enhanced frauded and tailgating detection is required our 3d tailgating detection camera can be integrated to work with any of our products or on any standalone door.

Evolve designs and reliable and robust entrance control produces essential for todays gyms and leisure centres.

Our network of approved installers means there is always someone local to look after your facility.

## OUR SOLUTIONS

### Tripod Turnstile

The TT300 modular design tripod turnstile offers, cost-effective, fast operating, easy to use, reliable entrance solution for internal or external use in areas where there is a large and constant flow of people.

### Pedestrian Gates

Our swing gate range of both single and double leafed paddle gates provide safe, high speed, bi-directional pedestrian throughput, with an elegant and sophisticated look, essential for today's corporate environment.

Gyms & Leisure

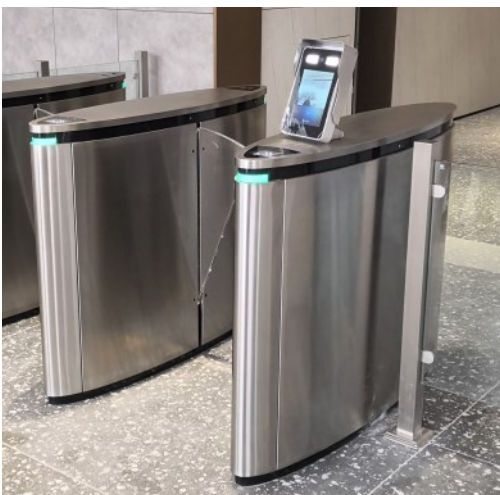

# Our Solutions

## Retractable Gates.

Our **RG** series of retractable leafed gates are designed to provide optimum pedestrian throughput but in an elegant, sophisticated, and discreet manner, essential for today's educational and corporate environment.

## Full Height Turnstile.

The FT range of full height turnstiles has been designed to provide high level external perimeter security for pedestrian movement in and out of restricted areas for staff, visitors, and contractors.

Gyms & Leisure

# Our Solutions

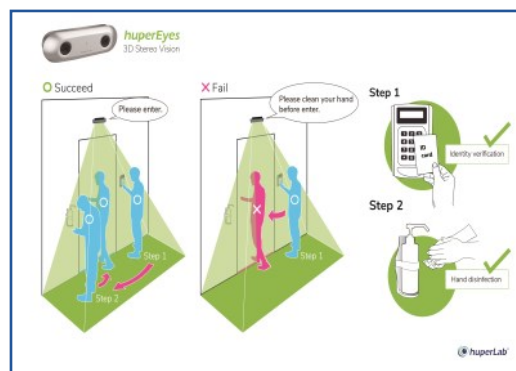

## Security Portals

Security portals with single person checking systems are ideal for 24/7 unmanned gyms.

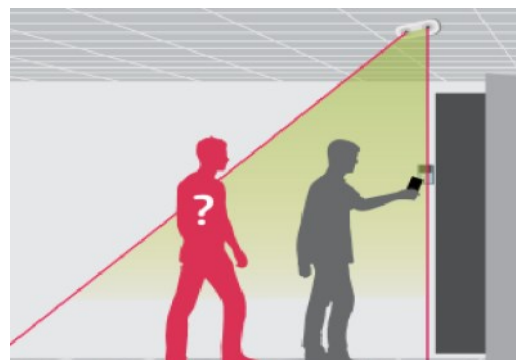

## 3D Tailgating Detection

The 3D depth-sensing technology can achieve the high accuracy level to 98% with high tolerance to light and shadow changes, and the overlapping of moving objects.

With greater video analytics integration and system flexibility, it is capable of people counting, virtual fence, surveillance and security, and customer service improvement for retail stores, transportation, home, and store security.
